
STATIONERY DESIGN

A complete stationery system was designed specifically for the event, including invitations, menus, signage, seating elements, printed materials, and custom graphic applications. The visual identity drew from the project's architectural narrative, combining minimal typography, metallic finishes, and exhibition-inspired layouts to create a consistent experience across all physical touchpoints.

DENIZ & YIGIT
Wedding Project, 2026

A multidisciplinary wedding project exploring space, narrative, objects and moving image through:

Creative Direction
Stationery Design
Video Installation
